

SAP Credentials

Virtustream is unparalleled at running SAP® in the cloud. That's because our platform was purpose-built for handling complex, mission-critical enterprise applications.

Our experts have extensive experience working directly with SAP applications, and can help you achieve the increased performance and availability, reduced costs, powerful security, and proactive regulatory compliance reporting that you require for your mission-critical workloads.

With over 2,500 SAP migrations under our belt, we've seen first-hand that deploying SAP with Virtustream provides the enterprise-class security, compliance, elasticity and resiliency that your business needs.

Virtustream has a long, deep relationship with SAP that has resulted in many first-to-market milestones with SAP in the cloud. Virtustream was the first to host product SAP in a multi-tenant cloud, the first to run production SAP ECC on HANA in the cloud, and the first to run production SAP S/4HANA® in the cloud. Virtustream is one of five global premium suppliers of SAP HANA Enterprise Cloud, and has more than 250 clients running production SAP applications in the cloud.

Our unparalleled SAP expertise and assurance is reflected by our SAP certifications which include hosting services, SAP HANA operations services, cloud services and database migration option.
